Version:	1	Specialised in:	G2F
		Main field of study:	Business Administration

---

## Intended Learning Outcomes (ILO)

On completion of the course the students will be able to:

### *Knowledge and understanding*

1. Demonstrate the basic concepts of logistics and supply chain management.
2. Demonstrate the importance of logistics and supply chain management and its value for competitive advantage of the firm.
3. Reason critically and independently around problems related to different actors and flows in the supply chain.

### *Skills and abilities*

4. Analyse and interpret the supply chain, the role of its actors and its logistics flows and function.

### *Judgement and approach*

5. Critically assess the theoretical foundations for models and techniques related to logistics and supply chain management.
6. Reflect upon and evaluate their own behaviour in the project work.

## Contents

This course introduces the theoretical foundations of logistics and supply chain management with an international focus. The course consists of the following parts:

- Theoretical foundations of logistic and supply chain management, frameworks and tools in managing supply chain, 8 credits
- Course project and self reflection, 2 credits.

## Type of instruction

Lectures, group work, and individual tutoring.

The teaching is conducted in English.

## Prerequisites

60 credits first cycle courses in business administration, economics or law.

Fluency in English equivalent to at least a 575 (paperbased test) 90(internetbased test) TOEFL score (or the equivalent)

## Examination and grades

The course is graded Fail (U), Pass (G) or Pass with Distinction (VG).

ILO 1-6 will be examined in a Oral exam

ILO 4-6 will be examined in a Article review

ILO 4-6 will be examined in a Book review ILO 4-6 will be examined in a active participation and written report on Logistic game

The sum of the result from the written exam, course project and logistic game determines the final grade of the course. The final grade is issued when all course units have been passed.

Registration of examination:

Name of the Test	Value	Grading
Examination <sup>1</sup>	10 credits	A/B/C/D/E/FX/F

<sup>1</sup> Determines the final grade of the course, which is issued only when all course units have been passed.

## Course evaluation

At the outset of the course the course coordinator ensures that course evaluators are elected (or exist) among the students. The course evaluation is carried out continuously and at the end of the course. At the completion of the course the course evaluators and course coordinator discuss the course evaluation and possible improvements. The result is reported among others to the Associate Dean for Education, the Council of Undergraduate and Master Education and the Board of Directors of JIBS. The course coordinator shall at the outset of the following course report results and measures from the previous course evaluation.
