Sangeeta Bagga-Gupta

Title: Studying gendered violence ethnographically across time and space.

Content: This seminar will share data and analysis that point towards the need to bring different scales to bear upon issues of gendered spaces on the one hand, and talk about violence as social interaction on the other. It will report upon the interactional order of gendered spaces and violence in the ongoing GTGS (Gender Talk Gender Spaces) project in the mega-city of Mumbai. The seminar will raise methodological challenges that frame ethnographic research in glo-cal times.

Seminarier är i samarbete med Kulturgeografi, CUREs, Genusvetenskap och Statskunskap.
