Download the Installation file

Double click on the DMG-file so that it is opened (Can usually be seen on the Desktop). Go in to the folder where you should be able to find the C759_C658_C368_C287_C3851_109.pkg file. Approve the installation with a local user account on the Mac and follow the instructions.

PS: You need to be connected to the Eduroam Wifi to be able to connect to the printers.

Then you can go in to Settings of you Mac and go to Printers and Scanners Where you want to add a new printer.
