Temporary assignments related to my academic work Davidsson, P., Lindmark, L. & C. Olofsson, 1998. Small Firms and Job Creation during a Recession and Recovery. I: Z. Acs, B. Carlsson & C. Karlsson (eds.), *Entrepreneurship, Small and Medium-sized Enterprises and the Macroeconomy*, pp. xx-xx. Cambridge, MA.; Cambridge University Press

I have had a large number of assignments around the world as examiner, organizer of conferences and workshops, conference organizer, ad hoc reviewer for journals, publishers and grant foundations; work for government agencies and peak bodies, and consulted for commercial organizations.

Teaching

Although I have for most of my career held positions heavier on research than on teaching I have in all done the equivalent of several years of full time lecturing. I have additional pedagogical experience from teaching at primary school; approx. 1100 hours in class during the 1978-1981 period. I have considerable experience of curriculum development on bachelor, masters and doctoral levels. I have also written teaching cases and other educational material (see entries “research vignettes”, “sketchbook videos” and “teaching materials” in ‘list of publications’ below).

A fair assessment of my qualities as a teacher is probably that I do very well with Ph.D. students, MBAs and executives, where the participants can give more intellectual and experience-based input to a fruitful, interactive learning experience. With undergraduates I reach well above average, but not award-winning status. The evaluations tend to say that they appreciate this professor’s knowledge of his subject matter, but in this type of group I do not score as highly on entertainment value.

I have not kept complete track of my teaching over time, so this is my best reconstruction:

At QUT 2004-2020 and ongoing

<i>Level</i>	<i>Unit and deliveries</i>
Undergraduate	Guest lectures in classes on entrepreneurship and small firm growth, 2008-

Administrative and leadership qualifications

From Jan. 2010- June 2018 I was the (founding) Director of the Australian Centre for Entrepreneurship Research.

In 2010/11 I was the elected chair of the 2,700 member strong Entrepreneurship Division (ENT) of the Academy of Management. This was part of a 5-year participation in the ENT leadership team.

2007-2009 I was Assistant Dean (Research) for the Faculty of Business and QUT, Australia.

During 2006-7 I initiated and built the faculty-wide “Entrepreneurship & Innovation Cluster” (www.bus.qut.edu.au/research/acbr/eirp), from scratch to a research group with 40+ members and affiliates.

2004-7 I was Research Director at the Brisbane Graduate School of Business, QUT, Australia.

The above positions entail all aspects of research leadership such as developing strategies, benchmarks and incentives; establishing mechanisms for initiation and development of research grant applications and journal publications; development of enrolment criteria; curriculum; milestones and supervisory support structure for research students, etc.

July 2002-June 2004 I was Head of the Department for Entrepreneurship, Marketing and Management (EMM) at JIBS. This involved managerial responsibility for a unit with over 40 people as regards recruiting, coaching and “cultivation” of people as well as financial management, although some aspects of the latter has not been my responsibility (e.g., salary setting). I also held this position temporarily in 1995 for six months during a colleague’s sabbatical.

During 1998-2001 I was program director/research leader for a major, international-collaborative research program, the Program on Entrepreneurship and Growth in SMEs (PEG). This assignment involved management of an activity involving more than twenty people; recruiting and delegating responsibilities to these people, budgetary/financial responsibilities, arranging meetings and international visits, deciding on internal ‘applications’, etc.

I effectively functioned as full professor with all the administrative duties that follow that position since I was first recruited to JIBS in 1994, although the formal appointment as full professor came in 1996. Within the school, I was ‘Subject Area Manager’ for the Entrepreneurship sub-discipline during all of this time. Holding a professorship in a small and growing school also means actively serving on various committees, boards and work-groups internally.

Many other aspects of ‘administrative qualifications’ have already been mentioned above and will here only be repeated in brief:

- leader/joint leader of several major research programs and projects
- co-chair/member of the organizing committee for several international conferences

- Director and board member, TRUM research centre, Umeå
- Manuscript editor of three scholarly journals
- editor of books and special issues of journals ; i.e. co-coordinator of author teams
- member of Executive Committee for major, international research collaboration
- member of Scientific Board, FSF
- supervision of doctoral students
- various more temporary assignments such as conference organization committees

International conference papers

(I have presented well over 150 papers at conferences and I no longer record them systematically. Important papers move on to other forms of publication. I keep only the below because they have a particular history.)

- C119. Davidsson, P., 2008. Some Conclusions about Entrepreneurship and Its Support. *World Entrepreneurship Forum*, Evian, Nov. 13-15. **Invited as one of 10 global thought leaders for a high profile policy-maker event.** The paper was distributed to participants; no oral presentation.
- C36. Davidsson, P., 1995, Determinants of Entrepreneurial Intentions. Paper presented at the *RENT IX Workshop*, Piacenza, Italy, Nov. 23-24, 1995. This paper was 2nd runner-up in the Best Paper Award vote. I was invited by the editor to have it published with minor revisions in Entrepreneurship and Regional Development (ABDC A) but declined as I intended a more thorough upgrade—which I never found time for. As an unpublished paper it has collected 1,000+ citations on Google Scholar.

Data Sets

1. *Continued Entrepreneurship and Small Firm Growth*. Designed and organized data collection through phone + mail questionnaires from 400+ business owner-managers, supplemented with secondary data. Main publications: B1, J1, J3, J29, SV3, RV4.
2. *Business Dynamics in Sweden*. In collaboration with Leif Lindmark, Christer Olofsson, and experts at Statistics Sweden we compiled from multiple sources two waves of comprehensive data sets covering archival data on all business establishments in Sweden (600 000+) over a ten-year period. Parts of the study were in collaboration with six other countries (Reg Stud. Spec. Iss. 1994). Main publications: B3, B4, J6, J8, J9, J12, J13, BC22.
3. *Culture and Entrepreneurship*. I designed and organized two large mail surveys (appr. 1500 resp. each) of the general population in different region types. Main publications: J9, J11, B2, R13, BC13, C36.
4. *High-growth Firms*. Together with F. Delmar and experts at Statistic Sweden I compiled archival data on 12 000 firms over 10 years. Main publications: J14, J16, J22, J24, J27, J47; BC60; R22. Also used in Pubuduni Jeewandara's dissertation work.
5. *Panel Study of Entrepreneurial Dynamics (public domain data set)*. I was part of the team designing this innovative, public data set, which comprises survey data of over 800 "nascent entrepreneurs" and which has been the basis for over 100 publications by a large number of scholars. See file:///C:/Users/davidssp/Downloads/psed_bibliography-2015_07_15.pdf. Own main publications in relation to this data set are J31, J35, J50, BC40, EB14.
6. *Swedish Panel Study of Entrepreneurial Dynamics*. Swedish version of the above. Designed and organized (w. F. Delmar) phone + mail surveys with five waves over 24 months with 300 nascent entrepreneurs. Main own publications: J15, J24, J28, J41, J49, J50, EB14, J61. Basis for one PhD dissertation (M. Samuelsson) and several journal articles by other authors without my co-authorship (e.g., F. Delmar, S. Shane, B. Honig, T. Karlsson, J. Wiklund, G. Chandler).
7. *Entrepreneurship in Different Organizational Contexts*. Designed (w. T. Brown and other colleagues) and organized two waves of phone + mail survey with a sample of 1633 firms. Main own publications so far: J21, J40, J56, J57. The data set was the basis for one PhD dissertation (L. Naldi) and several journal articles by other authors without my co-authorship.

8. *Longitudinal Study of the 1994 Start-up Cohort*. With J. Dahlqvist and other colleagues I designed and organized two follow-ups of what was originally a government survey of 7,400 genuine start-ups. Main own publications. J17, J42. The data set was part of the empirical basis for one PhD thesis (J. Dahlqvist).
9. *Comprehensive Australian Study of Entrepreneurial Emergence (CAUSEE) (public domain data set)*; an expanded and upgraded Australian version of 5-6 and the US follow-up “PSED II”. Main own publications related to this project: J55, J58, J61, J65, J69, J70, J90; BC73-75, BC81, BC 83, R24-R37; SV2; SV4.-5 Further, J31, J35, J50 are part of the background work for the project. The data set has yielded five PhD, one MSc, and one Graduate Certificate theses. It has also been the basis for journal articles by other authors without my co-authorship. Customized analyses have been provided to multiple government departments and to the Australian Productivity Commission (e.g., R30-37). See <http://eprints.qut.edu.au/49327/>
10. *Panel Study of Entrepreneurial Dynamics: A Five Cohort Outcomes Harmonized Data Set (public domain data set)*. Harmonized partial data set combining data from 5, 6, 9 and two other data sets; created by P. Reynolds. Own publication: J69.

Grants

With Paul Steffens, Henri Burgers, and Rene Bakker, respectively, I have received three ARC Linkage grants in 2007, 2009 and 2013.

An EU Marie Curie Fellowship grant worth AUD 300,000+ with me as supervisors covered Tonis Mets’ employment and overhead costs for two years 2014-16.

In Nov. 2005 I received an ARC Discovery grant, which was the largest in the country in Business & Economics, and the largest across all disciplines at QUT in 2005 (AUD 455,000 for a four-year project). We subsequently raised AUD 260,000 (ARC Linkage) and AUD 180,000 (Industry Partners) for an add-on to this project.

Recent government grants:

- Uncovering enablers of high-impact entrepreneurship, ARC Discovery (v. F. von Briel), 2022-2024, AUD 203,000.
- Academic Entrepreneurship in Australian Universities, ARC Discovery (v. Hutmacher, Obschonka, Audretsch), 2022-2024, AUD 278,000.
- Australian Government Department of Industry, Innovation and Science (DIIS) (Commercial Research), Global Entrepreneurship Monitor 2016 – 2017 (w. Steffens), 2016; \$100,000;
- Queensland Government Department of the Premier and Cabinet (Commercial Research) Queensland’s Entrepreneurship Profile: Comparison with the Other States and Territories (Based on GEM 2010-2015) (w. Steffens) 2016; \$8,500;
- Australian Government Department of Industry and Science (Commercial Research) Broadened Accessibility of CAUSEE data (w. Steffens) 2015; \$24,420;
- Australian Government Department of Industry and Science (Commercial Research), Global Entrepreneurship Monitor: 2014 – 2015 (w. Steffens), 2014; \$100,000;
- Australian Government Department of Industry (Commercial Research) Comprehensive Australian Study of Entrepreneurial Emergence: Outcomes Follow-Up (w. Gordon, Steffens) 2013; \$80,000;
- Australian Government Department of Industry (Commercial Research), Business Creation in Australia (w. Gordon, Steffens) 2012 \$55,000.

The largest external research grant I have received was the SEK 25 million (appr. AUD 4.2 million) received from Knut & Alice Wallenberg’s Foundation in 1998 for the first three years of the Program on Entrepreneurship and Growth in SMEs (PEG). Behind the application were professors Leif Melin, Leif Lindmark, and myself. During my time at JIBS (1994-) I received other external research grants for approximately AUD 4 million (from the Hamrin Foundation, the Wallenberg Foundation, The Council for Work Life Research, Ruben Rausing’s Foundation, the “Sparbanksstiftelsen”, the “Handelsbankens Forskningsstiftelser”, and others). Some of these have been shared with 1-2 other full professors at JIBS. Prior to my time at JIBS my research activities were to a large extent covered by external research grants that I had received either by myself or together with other scholars.
