

COURSE SYLLABUS

Occupational Therapy, Theory I, 7.5 credits

Occupational Therapy, Theory I, 7,5 högskolepoäng

Course Code: HA1R26	Education Cycle: Second-cycle level
Confirmed by: Utbildningsrådet Feb 16, 2015	Disciplinary domain: Health sciences
Revised by: Utbildningsrådet Jan 29, 2019	Subject group: TR1
Valid From: Jan 20, 2020	Specialised in: A1N
Version: 3	Main field of study: Occupational Therapy
Reg number: Department of Rehabilitation	

Intended Learning Outcomes (ILO)

Upon completion of the course the student will be able to:

Knowledge and understanding

- thoroughly describe different theoretical arguments related to occupation
- thoroughly analyse and argue for the significance of occupations to human health from individual, group, societal and global perspectives.

Skills and abilities

- independently analyse, identify and critically review the similarities and differences between theories, frames of reference and models in occupational therapy and occupational science and critically argue for the consequences of applying those in own practical work or area of interest
- critically discuss the origin and development of occupational therapy and occupational science
- argue for own conclusions based on different theoretical arguments related to occupation
- show clarity and logic in disposition and linguistic stringency and applies relevant terminology in written documentation.

Judgement and approach

- critically review different theoretical arguments related to occupation and evaluate their usability within different areas of occupational therapy practice
- critically review and evaluate own achievements, and identify what he/she needs to develop with respect to scientific method and argumentation.

Contents

- action theory
- health theories
- occupational therapy and occupational science theories, models and frames of reference
- theory development

Type of instruction

The course is implemented through a web-based distance course and consists of online lectures and seminars.

The teaching is conducted in English.

Prerequisites

The applicant must hold the minimum of a Bachelor of Science in Occupational Therapy, 180 ECTS credits or equivalent from a recognised university.

Examination and grades

The course is graded A, B, C, D, E, FX or F.

Examination of the course is based on assignments in student pairs, seminars and an individually written reflection report.

An assistant professor serves as examiner for the course.

Registration of examination:

Name of the Test	Value	Grading
Examination	7.5 credits	A/B/C/D/E/FX/F
