

COURSE SYLLABUS

Anatomy and Physiology, Basic Course, 7.5 credits

Anatomy and Physiology, Basic Course, 7,5 högskolepoäng

Course Code:	HANG18	Education Cycle:	First-cycle level
Confirmed by:	Utbildningsrådet Nov 28, 2017	Disciplinary domain:	Medicine
Revised by:	Utbildningsrådet Apr 9, 2024	Subject group:	ME1
Valid From:	Aug 19, 2024	Specialised in:	G1N
Version:	2		

Intended Learning Outcomes (ILO)

Upon completion of the course the student should have the ability to:

Knowledge and understanding

- describe the structure of the human body at the level of cells, organs and organ systems
- describe the function of the human body at the level of organ and organ systems
- describe the interaction between the organs and organ systems under normal physiological conditions and changes.

Skills and abilities

- identify and localize surface anatomy
- use correct medical terminology.

Judgement and approach

- integrate physical activity in a health perspective.

Contents

- cells, tissues, and organs of the human body
- nervous system, sensory organs, and the endocrine system
- musculoskeletal system
- circulatory system and respiratory system
- digestive system
- urinary system

Type of instruction

The course is implemented in the form of lectures, seminars and laboratory lessons.

The teaching is conducted in English.

Prerequisites

General entry requirements

Examination and grades

The course is graded A, B, C, D, E, FX or F.

The course is examined in the form of active participation in a seminar as well as an individual written examination.

A university lecturer serves as the course examiner.

Registration of examination:

Name of the Test	Value	Grading
Seminar	1 credit	U/G
Individual written examination	6.5 credits	A/B/C/D/E/FX/F
