

COURSE SYLLABUS

Cardiovascular Nursing from a person Centered Perspective, 5.5 credits

Cardiovascular Nursing from a person Centered Perspective, 5,5 högskolepoäng

Course Code: HCNN18	Education Cycle: First-cycle level
Confirmed by: Director of Education Jun 26, 2018	Disciplinary domain: Health sciences
Valid From: Aug 20, 2018	Subject group: OM1
Version: 1	Specialised in: G2F
Reg number: Department of Nursing	Main field of study: Nursing

Intended Learning Outcomes (ILO)

Upon completion of the course the student will be able to;

Knowledge and understanding

- describe and reflect upon the extent of cardiovascular problems from an epidemiological and international perspective
- describe and critically review the health care organisation of some of the most common cardiovascular problems
- describe and reflect upon how gender-, age- and cultural related factors influence the risk for cardiovascular problems
- describe and reflect upon the life situation during the life span regarding cardiovascular problems from a patient and family perspective.

Skills and abilities

- perform promotive/preventative nursing activities that reduce the risk of cardiovascular problems and increase adherence to and participation in care and treatment.

Judgement and approach

- reflect upon the epidemiological and international perspective of the individual and its importance regarding cardiovascular problems
- reflect upon how own values and approach/attitudes affect nursing in connection to cardiovascular problems.

Contents

- the effects of cardiovascular problems in an international context
- differences of cardiovascular problems from a gender and age perspective
- cardiovascular problems from a patient and family perspective
- use of the concepts, empowerment, self-care, adherence, behavioral change, health related quality of life and social support in cardiovascular care
- different aspects of the cardiac care process
- the role of cardiovascular nursing in disease management programs

- promotion and prevention

Type of instruction

The course is conducted in the form of teaching sessions and individual studies.

The teaching is conducted in English.

Prerequisites

General entry requirements. Passing grades in 30 credits and completed the remaining 30 credits in year one of the nursing program (or the equivalent).
