Contents

- entrepreneurial approach in occupational therapy
- occupational therapy methods and strategies for role emergent placements
- collaboration with various stakeholders
- professional approach

Type of instruction

This course comprises of a clinical placement in an occupational therapy setting. Placements where occupational therapists are not typically involved can also occur, in this case student will be supervised remotely by teachers in the occupational therapy programme.

The course starts with a day on campus and ends with a seminar of 1-2 days on campus.

Discussions and tutorials will be conducted via the on-line platform wherever applicable.

The teaching is conducted in English.

Prerequisites

General entry requirements and completed courses in Occupational Therapy 60 credits including clinical placement course in Occupational Therapy (or the equivalent).

Examination and grades

The course is graded A, B, C, D, E, FX or F.

The course is examined in the form of an individual written assignment which is also presented orally at a seminar. The supervisor's assessment data from the clinical training is also included.

University lecturer serves as the course examiner.

Registration of examination:

Name of the Test	Value	Grading
Examination	7.5 credits	A/B/C/D/E/FX/F

Other information

Attendance regulations

Course attendance is compulsory for at least 30 hours per week of clinical placement (workplace training). In the event of non-attendance, a supplemental arrangement is agreed with the examiner and supervisor.

Temporary interruption of a course

The School of Health and Welfare may suspend a student's participation in clinical training or other practical activities during the course if a student demonstrates gross unfitness/ incompetence when applying skills. A student whose work-based training or other practical activities have been canceled due to gross inadequacy/incompetence may not continue study before the course director or examiner has verified and approved that the student has the knowledge and skills required. In connection with a decision on suspension, the decision will specify the grounds on which the suspension is based. After the decision an individual plan will be established for the student where knowledge and skills gaps are specified, the degree of support the student is entitled to, and the terms and date(s) for examination(s).

Course literature

The study material has been selected in consultation with teachers and supervisors based on the

chosen area of practice, about 500 pages.
