The teaching is conducted in English.

The course is examined through one individual written assignment, and one oral group examination. The individual written assignment decides the final grade of the complete course. For a passing grade on the course, the student needs a G on the oral group examination, and an E on the individual written assignment.

The learning outcomes forms the basis for the structure of teaching, the composition of the course literature and the design of the examination. The examination must allow for students to be assessed on an individual basis. Further information concerning assessment of specific intended learning outcomes and grading criteria is provided in a study guide distributed at the beginning of the course.

Students are guaranteed a minimum of three attempts to pass an examination, including the regular attempt.

If a student has failed the same examination three times, the student is entitled to request that the next examination be assessed and graded by a new examiner. The decision to accept or reject such a request is made by the vice dean of education. A student may not make a second attempt at any examination already passed in order to receive a higher grade.

In case a course is terminated or significantly altered, examination according to the earlier syllabus shall be offered on at least two occasions in the course of one year after the termination/alteration.
