### Lärandemål

On completion of the course, the student should be able to:

#### Kunskap och förståelse

- explain and problematize different perspectives and levels of communication and sustainability
- identify and explain communication processes and relations in the (un)sustainable society
- understand psychological and structural mechanisms connected to climate opinions/behaviour

#### Färdighet och förmåga

- use concepts of sustainable communication in the production of information
- design and formulate research problems related to sustainable communication

#### Värderingsförmåga och förhållningssätt

- critically evaluate the role of communication in the (un)sustainable society

### Innehåll

- Perspectives on development and sustainability
- Environmental aspects of sustainable communication
- Social sustainability and the role of communication
- Organizational/Economical aspects of sustainable communication
- Social and psychological aspects of political action

### Undervisningsformer

The teaching consists of lectures, seminars and exercises performed individually and in groups.

A learning management system is used.

Students who have been admitted to and registered for a course have the right to receive instruction/supervision for the duration of the time period specified for the particular course to which they were accepted. After that, the right to receive instruction/supervision expires.

Undervisningen bedrivs på engelska.

### **Förkunskapskrav**

The applicant must hold the minimum of a bachelor's degree (i.e. the equivalent of 180 ECTS credits at an accredited university) with at least 90 credits in media and communication studies or social studies including independent, theoretical based work, i.e. a thesis or the equivalent. English 6 in the Swedish upper secondary school system or international equivalent.

### **Examination och betyg**

Kursen bedöms med betygen A, B, C, D, E, FX eller F.

The grades A, B, C, D and E are all passing grades. For courses with more than one element of examination, students are given a final grade based on an overall assessment of all the elements included in the course. The final grade of the course is issued only when all elements of examination have been passed.

The examination is based on the intended learning outcomes.

For this course, the examination is based on: one written group assignment including oral presentations in seminars, one individual written assignment including oral presentation in a seminar and one individual written examination.

The examination must allow for students to be assessed on an individual basis. Further information concerning assessment of specific intended learning outcomes and grading criteria is provided at the beginning of the course.

Students are guaranteed a minimum of three attempts to pass an examination, including the regular attempt.

If a student has failed the same examination three times, the student can request that the next attempt be graded by a new examiner. The decision to accept or reject such a request is made by the associate dean of education. A student may not make a second attempt at any examination already passed in order to receive a higher grade.

In case a course is terminated or significantly altered, examination according to the earlier syllabus shall be offered on at least two occasions in the course of one year after the termination/alteration.

Poängregistrering av examinationen för kursen sker enligt följande system:

Examinationsmoment	Omfattning	Betyg
Skriftlig och muntlig gruppuppgift <sup>1</sup>	1,5 hp	U/G

Individuell skriftlig och muntlig uppgift 1	3 hp	A/B/C/D/E/FX/F
Individuell skriftlig tentamen	3 hp	A/B/C/D/E/FX/F

<sup>1</sup> The assignment is assessed as Fail (U) or Pass (G).

## Kursvärdering

The instruction is followed up throughout the course. A course evaluation is conducted at the end of the course. A summary and comments are published in the learning management system. The evaluation constitutes a basis for future improvements to the course.
