

Change of login service for some services, e.g. Ladok, JU play, admission.se.

Background

Today, login use two different systems (Shibboleth and ADFS) which, for IT technical reasons, have meant that you as a user have had to use one or the other, depending on which service you needed to access. Now the conditions are better to coordinate everything into one service, which means that we have decided to use only ADFS in the future.

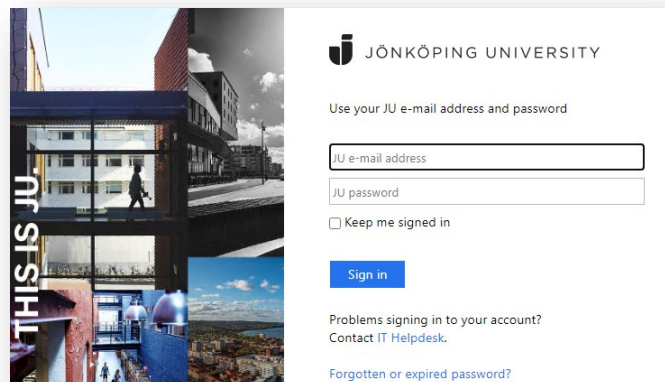

Today they look like this:

Login service - Shibboleth

The screenshot shows the Shibboleth login interface for Ladok. At the top left is the Jönköping University logo. The main heading is "Login to Ladok för studenter". Below this is a large green letter 'L' logo. To the right of the logo are links for "Forgot your password?" and "Need Help?". A paragraph of text explains that Ladok is a central service for student administration. Below the text are input fields for "Username" and "Password", each with a small icon to its right. There is a checkbox labeled "Don't Remember Login" and a purple "Login" button. At the bottom, there is a link for "Service description and privacy policy".

Login service - ADFS

The screenshot shows the ADFS login interface for Jönköping University. On the left is a vertical banner with the text "THIS IS JU" and a collage of university images. On the right, the Jönköping University logo is at the top. Below it is the text "Use your JU e-mail address and password". There are two input fields: "JU e-mail address" and "JU password". Below these is a checkbox for "Keep me signed in" and a blue "Sign in" button. At the bottom, there are links for "Problems signing in to your account? Contact IT Helpdesk." and "Forgotten or expired password?".

What will happen

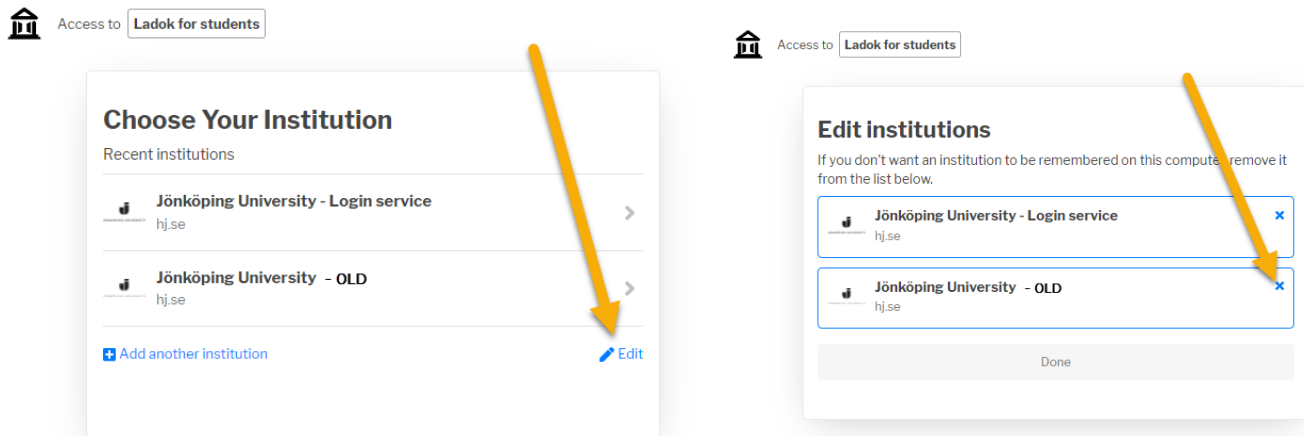

We will during week 7 start to re-direct all logins to the same login service. (Instructions below is valid from week 7.)

In some cases, actions may be required of you as a user, eg you need to "forget" the one called "-OLD" (The new one is called Jönköping University – Login Service)

It may look like this:

Select "Edit" and then click on the cross to delete the old one.

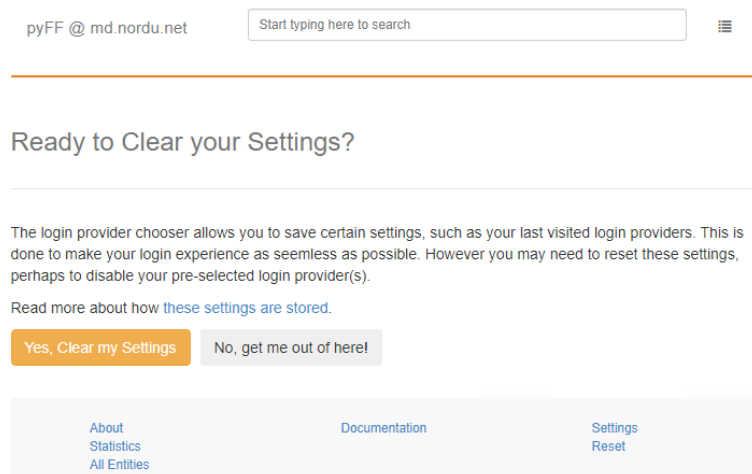

Done, now you can go back and look for Jönköping University again and select "Jönköping University – Login Service". If you have several institutions in the list, click on "Add another institution".

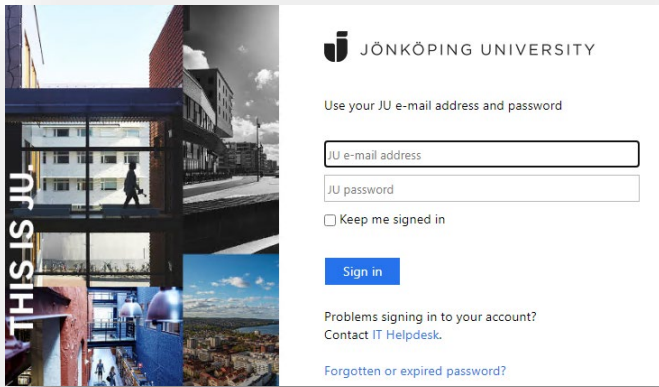

In some cases you also need to visit this page: <https://md.nordu.net/reset>

Click "Yes, Clear my settings"

Done, try to login again.

If you get an error message while logging in, kontakta IT helpdesk. ju.se/helpdesk
