

Guide how to install Safe Exam Browser (SEB) on Windows

Please follow the steps below to install Safe Exam Browser on a windows computer:

Go to the download site for the latest version of Safe Exam Browser for Windows:
<https://inspera.atlassian.net/wiki/spaces/KB/pages/55804209/Is+your+Safe+Exam+Browser+Up-To-Date>

You find the link on: ju.se/student/en/digital-exam

1. Click on For Windows 7, 8 or 10

Knowledge Base / Exam Preparation / Student

Is your Safe Exam Browser Up-To-Date?

 **Jens Andreas Pettersen**
Last modified Aug 06, 2018 by Linn Therese Lie

Safe Exam Browser prevents cheating by locking down access to resources on your computer as well as online resources for the duration of the examination.

Download and install Safe Exam Browser*

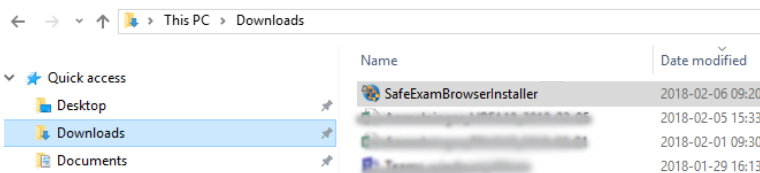

For Windows 7, 8 or 10.
For Mac OSX (10.10 or higher)

*Download the newest version of SEB supported by Inspera Assessment. Click [here](#) for a full list of system requirements.

Note, your institution may require a different version of SEB. Contact your institution for further information.

2. Click on the downloaded file which you will find above the activity bar in the bottom of the browser using the Chrome browser

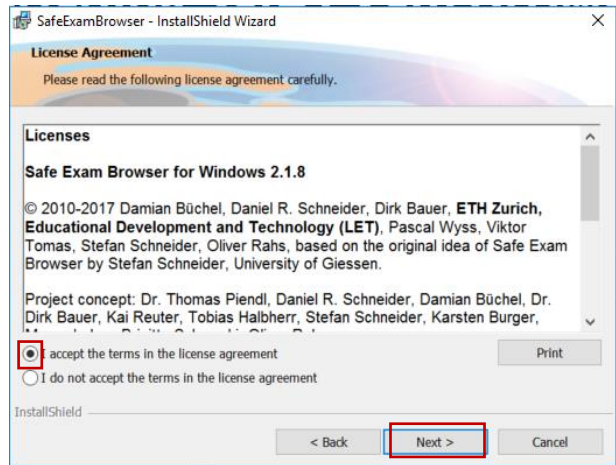

If you don't find the installation file, go to **Downloads** and double click on the file **SafeExamBrowserInstaller**

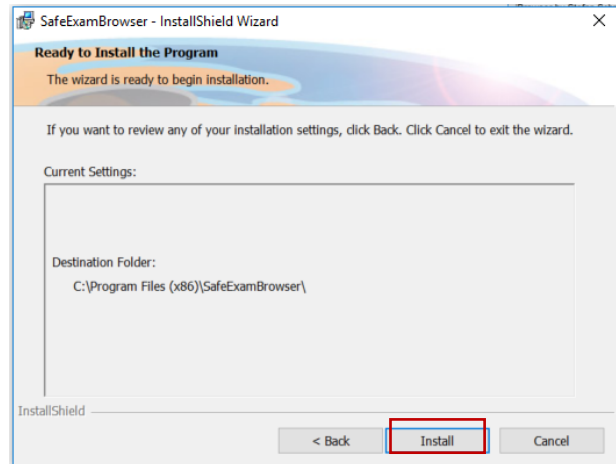

3. Safe Exam Browser will now begin to be installed
4. Click Next in the window that appears

5. Tick "I accept the terms in the licence agreement" and click on **Next**

6. Click on **Install**

7. Click on **Finish**
8. You have now installed Safe Exam Browser and will be able to perform exams in Inspira
