SWEDEN

Sweden is known for being a clean, beautiful country, covered with lakes and forests and inhabited by 10 million people who are generous, kind and friendly, if a bit on the quiet side. This is a country that is regularly cited as one of the top places to live in the world.

A COUNTRY OF INNOVATION

Lots of great innovations have originated here and many Swedish companies have grown as a result of this, for example Volvo, Ericsson, ABB, H&M and let’s not forget IKEA. Swedes have a talent for creative thinking and inventiveness too. For example, Skype and Spotify belong to the new generation of technological successes.

CLEAN, SAFE AND MODERN

It’s a beautiful country and the standard of living is high. Sweden has an incredible welfare system and healthcare. By international comparison, it is a prosperous country where wealth is evenly distributed. The citizens love and take care of nature and the environment, which is why their country is such a beautiful and clean place to live.

SUSTAINABILITY

Sweden is one of the global sustainability leaders and sees climate change as one of humanity’s greatest challenges. Sustainability is at the heart of Swedish customs and values with Greta Thunberg as a world-known and famous spokesperson for these challenges. With her strong mindset she increases the awareness of climate change among people all around the world. “If not now, when?”

EQUAL AND DIVERSE

Sweden is well-known for its inclusiveness and equality and is often cited as a country that is way ahead of the curve in terms of gender equality and LGBTQ rights. Due to high rates of immigration and an influx of employees from other parts of the world, Sweden, especially in urban areas, has become highly culturally diverse. It is a secular country but tolerant towards all religions and faiths.

RICH IN ARTS AND CULTURE

Sweden is a powerhouse in the fields of design, fashion, music, film and literature. It is the biggest exporter of pop music in relation to GDP, boasting international acts such as First Aid Kit, Robyn, Zara Larsson and the late Avicii. There are plenty of ways to get involved in arts and culture, from singing in choirs, to seeing plays, gigs and concerts and visiting museums up and down the country.

When you come here, you are free to be yourself just the way you are.

A BROAD BASE OF SKILLS
Our goal is to prepare you for achievement in business and give you an education that meets market demands. Our courses have a broad technical knowledge base to equip you with engineering skills and to stimulate entrepreneurial spirit. Our programmes are unique in that they provide knowledge from topic areas other than technology, such as leadership, communication, business and sustainability.

INDUSTRY CONTACT
Contact with industry is an important part of our education in order to ensure that what you learn is anchored in reality. We have many partnerships with leading companies such as Saab, Volvo, Kongsberg Automotive, Fagerhult, Samus and Vissapapa Group.

TOP OF THE CLASS
The School of Engineering is one of Sweden’s leading educators and a member of the CDIO initiative, which is a prestigious collaboration between leading engineering schools worldwide. We are also world leaders for research in materials and manufacturing technology for casting.

INTERNATIONAL COLLABORATION
School of Engineering collaborate with partner universities and companies abroad, both regarding exchange studies, internships and thesis work abroad. As a student at School of Engineering you’ll meet students from all over the world. Students come here to study programmes on bachelor or master level as well as exchange courses.

PATRICIA ALONSO MUÉLA
Patricia Alonso Muela is a former exchange student at JU from Escuela Técnica Superior de Ingenieros Industriales (ETSII), Universidad Politécnica de Madrid (UPM) Spain.

WHY DID YOU CHOOSE TO GO ON EXCHANGE?
I wanted a unique experience that improved my language skills, made me more independent and opened my mind to a new culture and a new way of working.

WHAT IS THE BEST THING ABOUT JÖNKÖPING UNIVERSITY?
It has to be the international environment and the student life – there are lots of student associations and activities to do, which makes it easy to meet new people. Also, the facilities here are amazing: the library, the student restaurants, the computer labs. Everything is open 24/7. JU has done a great job with their computer system here, you can log on and work anywhere on campus.

WOULD YOU RECOMMEND EXCHANGE STUDIES TO OTHER STUDENTS?
Yes, I would, and I would especially recommend JU as I felt more comfortable with the learning system there and their grading system was also more practical than the one in Spain. Furthermore, JU has a career centre that can help with your CV and prepare you for job interviews. It’s a good idea to come here for your final year of studies, so that you can get ready for setting out on your future career!

A PLACE TO GET INSPIRED
We have a welcoming study environment offering a close dialogue with professors and lecturers. Openness, inclusion and creativity are words that describe both the educational programmes and the school’s way of working.

DRIVEN BY NEW IDEAS
Our research aims to constantly add new aspects to what we already know and open up fresh platforms for knowledge, interaction and communication. The research areas focus on the conditions for education and communication. It spans the humanities, behavioral sciences, social sciences, theology, natural sciences and media and communication sciences. We offer doctoral programmes in education, media and communication science and disability research.

FOCUS ON SUSTAINABILITY
Globalization, climate issues, digitalization and inclusion in society are aspects of sustainability that are central to both education and research. We have a new master environment, starting in August 2022, composed of three different programmes within the fields of Media and Communication Studies, Education, and Global Studies, with a joint thematic focus on sustainability.

ROOF TOP GARDEN
On the top floor of the building we have a garden with a greenhouse, growing boxes and garden furniture. The Student association “Students for Sustainable Action” runs a project on urban farming where both Swedish and international students are involved.

“YOU’LL MAKE GREAT FRIENDS AND DISCOVER BEAUTIFUL PLACES”

WHY DID YOU CHOOSE TO GO ON EXCHANGE?
Having lived in different countries all my life, I was eager to discover a new culture. This is a lifetime experience and such a learning curve for everyone.

WHAT IS THE BEST THING ABOUT JÖNKÖPING UNIVERSITY?
JU is a great university and with all its international students and they know how to make you feel at home. They won’t hesitate to show you their culture and to find out about yours! JU is so understanding towards exchange students and will want you to make the most of your stay by organizing trips around Scandinavia. You’ll make great friends and discover beautiful places.

WOULD YOU RECOMMEND EXCHANGE STUDIES TO OTHER STUDENTS?

Gemma Black
former exchange student at School of Health and Welfare, JU from La Trobe University, Melbourne, Australia

WHY DID YOU CHOOSE TO GO ON EXCHANGE?
I knew that I wanted to experience nursing practice in another country and that by doing an exchange I would be able to gain a significant amount of knowledge, skill and technique that I would be able to bring home to Australia. I also love travelling and this was the perfect opportunity to broaden my horizons, meet new people of different nationalities and flourish as an individual.

WHAT IS YOUR FAVOURITE MEMORY?
Swimming in the lake with my friends, plus all my travel adventures!

WOULD YOU RECOMMEND EXCHANGE STUDIES TO OTHER STUDENTS?
Personally, nursing and caring for people is my passion – so being able to continue studying my passion overseas is something I will cherish forever. I would highly recommend doing an exchange to all students – it’s an incredible opportunity to gain independence and get a different perspective on your studies and future career.
