

FORSKNINGSPROJEKT – RESEARCH PROJECT

In Swedish

Delaktighet i vardagliga aktiviteter för barn med funktionshinder

Huvudfokus för detta projekt är delaktighet i vardagliga aktiviteter för barn med funktionshinder inom ett barnrättsperspektiv. Forskningsprojektet består av två delar:

1. Begreppet deltagande (participation) för barn med funktionshinder i låginkomstinställningar; hur mäts det, vem mäter det och var mäts det? En systematisk litteraturöversikt görs.
2. Hur upplever barn med funktionshinder och deras föräldrar delaktighet i olika kulturella kontexter? Ett nyutvecklat mätinstrument för delaktighet "Picture my participation" kommer att användas för att mäta barns delaktighet som det uppfattas av barn med funktionshinder och deras föräldrar. Intervjuer med barn med funktionshinder och deras föräldrar kommer att genomföras för att göra en jämförelse mellan barn och föräldrars perspektiv.

In English

Picture My Participation

The focus for this project is participation in everyday activities for children with disabilities within a child rights perspective. The research project consists of two parts;

1. The concept participation for children with disabilities in low income settings; how is it measured, by whom is it measured and where is it measured? A systematic literature review is being done.
2. How do children with disabilities and their parents perceive participation in different cultural contexts? A newly developed measuring instrument on participation "Picture my participation" will be used to measure children's participation as perceived by children with disabilities and their parents. Interviews with children with disability and their parents will be conducted in order to do a comparison between parent's and children's perspectives.

Duration of Project

4 years

Project funding

STINT SEK 500 000

Project leader

Karina Huus, Associate professor, Jönköping University, Karina.huus@ju.se

Project co-workers

Mats Granlund, Jönköping University

Shakila Dada, Pretoria University, South Africa

Juan Bornman, Pretoria University, South Africa

Christine Imms, Australian Catholic University, Australia

Ai-Wen Hwang, Chang Gung University, Taiwan

Ingalill Gimbler Berglund, Jönköping University

Patrik Arvidsson, Region Gävleborg and Jönköping University

Elisabeth Elgmark, Jönköping University
Frida Lygnegård, Jönköping University
Anna Karin Andersson, Jönköping University
Emelie Pettersson, Jönköping University
