TOMORROW IS OUR BUSINESS.

JÖNKÖPING INTERNATIONAL BUSINESS SCHOOL

Welcome to a top-ranked and double-accredited business school. Globally connected and with close ties to business and society, we provide relevant education for tomorrow's business leaders.

INTERNATIONAL FOCUS

We are the most international business school in Sweden, with around 50% of all programme students and teachers coming from other countries. This means that your study environment is enriched by diverse perspectives, offering great opportunities for inspiring collaboration and making you well-prepared for an international career.

DOUBLE-ACCREDITED AND TOP-RANKED

Jönköping International Business School is ranked as one of Europe's best business schools by the Financial Times. Our commitment to quality education is verified by double international accreditations. Focusing our efforts on sustainable change and ensuring quality is what makes us relevant and helps you further your career.

ENGINEERS OF TOMORROW.

SCHOOL OF ENGINEERING

Our vision is to be one of the leaders in Europe in developing and spreading new technology and knowledge that will reinforce the international competitiveness of enterprises.

A BROAD BASE OF SKILLS

Our goal is to prepare you for achievement in business and give you an education that meets market demands. Our courses have a broad technical knowledge base to equip you with engineering skills and to stimulate entrepreneurial spirit. As a student at the School of Engineering you will meet students from all over the world. Students come here to study programmes on bachelor or master level as well as for an exchange semester.

TOP OF THE CLASS

The School of Engineering is one of Sweden's leading educators and a member of the CDIO initiative, which is a prestigious collaboration between leading engineering schools worldwide. We are also world leaders for research in materials and manufacturing technology for casting. Contact with industry is important to ensure that what you learn is anchored in reality. We have many partnerships with leading companies such as Saab, Volvo, Fagerhult, Scania and Husqvarna Group.

MAKE A DIFFERENCE FOR TOMORROW.

SCHOOL OF EDUCATION AND COMMUNICATION

The School of Education and Communication offers programmes within the areas of teaching education, communication, global studies and human resources.

A PLACE TO GET INSPIRED

Openness, inclusion and creativity are words that describe both the educational programmes and the school's way of working. We have a welcoming study environment offering a close dialogue with professors and lecturers. All programmes are based on both practice and science, and advanced research is part of the education from early on.

FOCUS ON SUSTAINABILITY

At the School of Education and Communication teaching and research approach sustainability issues from the perspectives of social sciences and the humanities. Education at undergraduate and graduate levels equips students with knowledge and skills to understand how globalization, communication, digitalization, education, and working life may impact the transition to more sustainable societies.

CARE FOR TOMORROW.

SCHOOL OF HEALTH AND WELFARE

Welcome to one of Sweden's prime educators in the field of health sciences, health care and social work.

QUALITY RESEARCH IS OUR FOUNDATION

The School of Health and Welfare is one of Sweden's leading schools in the field of health care and social work, in part because of its top-quality research. Our health care research has been published extensively in renowned international journals. Our experience in education and research is long and substantial. As a student here, you will be given access to a learning environment that is up-to-date and relevant.

GOOD STUDENT INTEGRATION

The School of Health and Welfare offers a number of courses and several programmes taught in English where international students and Swedish students are integrated, thus ensuring a global and broadened perspective in the area of health care and social work.
