Adobe Creative Cloud – Named User License

1. Download the Creative Cloud desktop app from Adobe:

<https://creative.adobe.com/products/download/creative-cloud>

2. In Adobe Creative Cloud Installer, fill in your JU e-mail address and click in the password field to advance to the login page of JU.

A screenshot of the Adobe Creative Cloud Installer window. The window title is "Creative Cloud Installer". In the top right corner, there is an "Adobe ID" icon. The main text says "Sign in to continue". Below that is a red icon with a white envelope and the text "Install Creative Cloud". There are two input fields: the first contains the email address "andreas.briland@ju.se" and the second is labeled "Password". At the bottom left is a blue "Sign In" button, and at the bottom right is a blue link "Forgot password?".

3. If "Choose an account for ..." is displayed, select Enterprise ID.

4. Sign in with your JU credentials when the JU login page appears.

5. In the Creative Cloud desktop app, click Install for the Adobe applications you want to use. When the installation is complete, select Open to start. Shortcuts to the programs are also added to the Start menu.

6. If you want Adobe products in Swedish or another language, click on the three "dots" in the upper right corner and choose Preferences - Creative Cloud - App Language
