

Country Specific Mathematics requirements for Pathway Business & Pathway Engineering

In order to be eligible for Pathway for Business / Pathway for Engineering, we need to assess your current mathematics level (in addition to other requirements) to be sure it is equivalent to Mathematics B/2a, 2b, 2c (Swedish upper-secondary level). In the chart below, we list the mathematics requirement, sorted by country. If your country is not listed here or you have other questions concerning pathway requirements, please send an email to: Pathwayadmissions@ju.se
