Address: _____

Contact person: _____

Phone: _____

Mobile: _____

E-mail: _____

Project description approved by the company: _____ Date: _____
Signature contact person

Designation of supervisor and examiner

To be filled in by the course co-ordinator:

Supervisor JTH: _____

Examiner JTH: _____

Approval of project description

To be filled in by the supervisor:

Project description approved: _____ Date:¹ _____

Termination of thesis

The form may also be used to register the termination of a thesis. To be filled in by the course co-ordinator:

Date for termination of thesis: _____

Reason for termination: _____

Project description

The project description should consist of 2-4 pages and must include:

- Introduction (description of the topic)
- Background
 - o Origins of the proposal, describe the problem
 - o Explain why the problem is important
 - o Identify likely new knowledge
- Research objective, define research problem and associated questions.
- Company/organisation objective (if applicable), e.g. to develop or investigate a process, product or design.
- Specify how the research problem is related to the company objective
- Research method and implementation
 - o Provide the reasons for the choice of research method
 - o Identify the source and type of data to be used
- Relevance to the main field of study.
 - o State how the topic builds upon the content of courses of the Master's programme.
 - o Alternatively, if the topic sits outside existing courses explain how it belongs to the main field of study
- Time-line
 - o Gantt chart
 - o Topics to cover: e.g. feasibility study, information gathering, literature review, prototype construction, result-analysis, report writing.

¹ Supervision is offered throughout the length of the course.
