Reinstalling Windows 10 by yourself

You can start a reinstallation of Windows 10 by yourself. Before doing so, please see <https://ju.se/en/it-helpdesk/reinstallation-new-computer/important-when-changing-computer.html>

To prepare for the reinstallation of your computer.

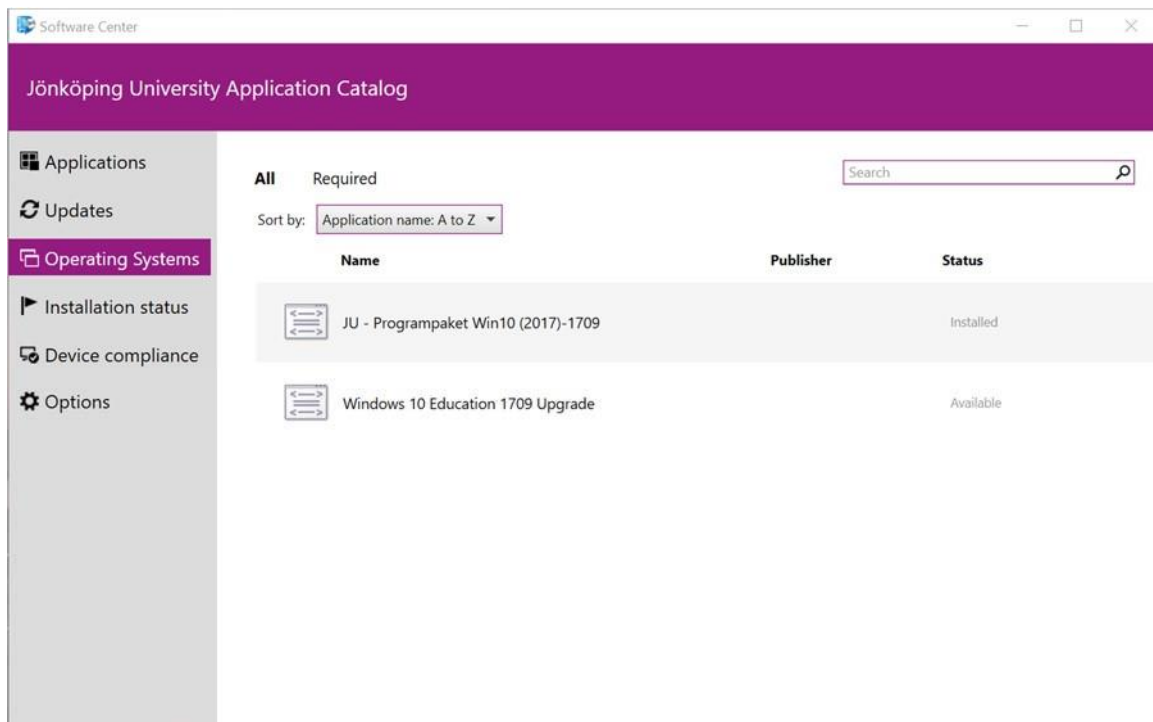

This will Reinstall Windows on the machine and delete everything saved locally on the hard drive.

You need to be connected to the schools network with a Ethernet Cable.

Open **Software Center** from the Windows 10 desktop. *J*

Click on **Operating systems**.

Select the **Program package “JU – Programpaket Win 10 [...]”**

Click **Reinstall**

Click **Install**, then wait for the installation process to finish. This may take a couple of hours.
