

COURSE SYLLABUS

Occupational Therapy, Research Methods, Intermediate Course, 7.5 credits

Arbetsterapi, vetenskaplig metod, fortsättningskurs, 7,5 högskolepoäng

Course Code: HAFN10	Education Cycle: First-cycle level
Confirmed by: Utbildningsrådet Apr 3, 2018	Disciplinary domain: Health sciences
Revised by: Director of Education Apr 11, 2023	Subject group: TR1
Valid From: Aug 28, 2023	Specialised in: G2F
Version: 3	Main field of study: Occupational Therapy

Intended Learning Outcomes (ILO)

Upon completion of the course, the student should have the ability to:

Knowledge and understanding

- identify various problem areas and specify research problems
- identify similarities and differences between various scientific theory focuses and illustrate their consequences for research work
- choose and evaluate relevant research methods and their applicability based on a scientific problem.

Skills and abilities

- critically review and evaluate scientific studies
- collect new knowledge through a scientific approach
- use various scientific methods in relation to various types of scientific problems
- analyse data material with applicable qualitative and quantitative methods
- apply research ethics principles.

Judgement and approach

- reflect on earlier knowledge and need for further knowledge in the scientific method.

Contents

- research ethics
- research methodology
- qualitative and quantitative data processing
- scientific theory

Type of instruction

The course is carried out in the form of lectures, seminars and workshops.

The teaching is normally conducted in Swedish, but can occasionally be in English.

Prerequisites

General entry requirements and completion of the course Occupational therapy in profession and research, 30 credits, as well as 60 credits from the courses Activity and development throughout life, 30 credits, and Occupational Therapy for Activity Limitations in Disability and Disease, 30 credits, Occupational Therapy and Activity Limitations throughout Life, 9 credits, Clinical placement, 6 credits, Occupational Therapy and Occupational Limitations when in Ill Health and Vulnerable Life Situations, 9 credits or the equivalent.
