Version: 1	Specialised in: A1N
Reg number: Jönköping Academy	Main field of study: Quality Improvement and Leadership within Health and Welfare

Intended Learning Outcomes (ILO)

Upon completion of the course students should have the ability to:

Knowledge and understanding

- describe the origins and contemporary conceptualisations of co-production in health and welfare
- identify co-production and related concepts as enacted at the micro-, meso- as well as macro-system levels
- understand the mechanisms underlying successful co-production processes
- understand the contributions and lived experience of patients and/or citizens in co-producing health.

Skills and abilities

- examine theoretical, ethical and practical applications of co-production
- understand how co-production and related concepts can be applied in quality improvement work
- critically appraise methods of co-production and related concepts as applied at the micro-, meso-, and/or macro-system levels.

Judgement and approach

- critically review and evaluate own achievements related to intended learning outcomes
- reflect upon personal experiences and commitment to co-production in practice, improvement work and research.

Contents

- co-production: origins and contemporary conceptualisations
- co-design: origins and contemporary conceptualisations
- practical methods for co-production (in daily practice, improvement work and research)
- co-production at the micro-, meso-, and macro-system levels
- evaluating the impact of co-production and understanding mechanisms of success

Type of instruction

The course is web-based with discussion and seminars through the web-based platform.

The teaching is conducted in English.

Prerequisites

The applicant must hold the minimum of a bachelor's degree (i.e. the equivalent of 180 ECTS credits at an accredited university) within health sciences, behavioral science, social work, educational sciences, mechanical engineering, urban design or equivalent. Proof of English proficiency is required.

Examination and grades

The course is graded A, B, C, D, E, FX or F.

Examination will be based upon active participation in seminars, course discussions and activities and an individual written assignment.

In the individual written examination Fx will not be applied.

The course examiner is a senior university lecturer.

Registration of examination:

Name of the Test	Value	Grading
Individual written assignment	5 credits	A/B/C/D/E/FX/F
Active participation in online seminars, course discussions and activities	2.5 credits	U/G

Other information**Attendance requirements**

Mandatory attendance of course introduction and seminars using the web-based platform.
Microphone headset to be used in seminars online.

Course literature

The most recent course literature will be presented at the start of the course.
