

COURSE SYLLABUS

Psychiatric Nursing, 7.5 credits

Psykiatrisk omvårdnad, 7,5 högskolepoäng

Course Code: HPSN10	Education Cycle: First-cycle level
Confirmed by: Utbildningsrådet Nov 27, 2018	Disciplinary domain: Health sciences
Revised by: Director of Education Nov 25, 2021	Subject group: OM1
Valid From: Jan 24, 2022	Specialised in: G2F
Version: 6	Main field of study: Nursing
Reg number: Avdelningen för omvårdnad	

Intended Learning Outcomes (ILO)

Upon completion of the course students should have the ability to:

Knowledge and understanding

- give details of pathophysiology, symptoms, diagnostics and treatment of common psychiatric health conditions
- in regard to failing mental health, give details of and explain medicines': mechanisms of action; effects; uses; and, side effects
- give details of nursing in cases of mental health problems.

Skills and abilities

- having regard to the perspectives of patients and those close to them, analyse and identify nursing needs in cases of mental health problems
- discuss and problematise the consequences of co-produced nursing in relation to mental health problems
- demonstrate such professional proficiency that no person's health or safety are prejudiced.

Judgement and approach

- reflect on and discuss how own approach and care environments affect meetings with patients and those close to them
- reflect on stigmatisation in connection with mental health problems
- identify and discuss ethical dilemmas that can arise in nursing in connection with mental health problems.

Contents

- Psychopathology, treatment methods, pharmacology and care in:
 - psychosis
 - neuropsychiatric disorders
 - anxiety and sleeping disorders
 - suicide
 - bipolar disorder
 - depression

- dependency problems
- The recovery process for:
 - patients
 - those close to patients
 - care staff
 - society
- Stigmatisation
- The situation and roles of those close to patients
- Theories, models and concepts in psychiatric care

Type of instruction

The course is implemented through lectures, seminars, study assignments, practical application at a clinical training centre (CTC) and clinical placements.

The teaching is conducted in English.

Prerequisites

General entry requirements and successful completion of semester 1 courses (or equivalent knowledge). Semester 1 comprises: Nursing Science – Profession, Subject and Science, 15 credits; Human Physiology and Anatomy for Nurses, 7.5 credits; Applied physiology and anatomy in nursing, 3 credits; and, Psychology, Nursing 4.5 credits. Additionally, completion of semester 2 and 3 courses (or equivalent knowledge) is also required. Semester 2 comprises: Medical Microbiology, Hospital Infection Control and Immunology for Nurses, 7.5 credits; Person-centered Care, Caring Approach and Communication, 7.5 credits; and, Practical Fundamentals In Nursing and Safety, 15 credits. Semester 3 comprises: Nursing in Health Problems, 15 credits; and, Pathophysiology and Pharmacology for Nurses, 15 credits.

Examination and grades

The course is graded A, B, C, D, E, FX or F.

Examination will be based upon written individual examination, seminars, written assignments, practical application exercises at CTCs and clinical placements.

A university senior lecturer serves as examiner for the course.

In the event of a non-approved grade in clinical placement or other clinical/practical activities, the student is referred to complete this clinical placement the next time the course is given within the regular course offering.

Registration of examination:

Name of the Test	Value	Grading
Individual written examination	2.5 credits	A/B/C/D/E/FX/F
Seminars	1 credit	U/G
Written assignments	0.5 credits	U/G

Practical application	0.5 credits	U/G
Clinical placement	3 credits	U/G

Other information

Clinical Placement-integrated learning (VIL) provides 3,5 of the course's total of 7.5 credits.

Attendance

Temporary interruption of a course

The School of Health and Welfare may suspend a student's participation in clinical training or other practical activities during the course if a student demonstrates gross unfitness/incompetence when applying skills. A student whose work-based training or other practical activities have been canceled due to gross inadequacy/incompetence may not continue study before the course director or examiner has verified and approved that the student has the knowledge and skills required. In connection with a decision on suspension, the decision will specify the grounds on which the suspension is based. After the decision, an individual plan will be established for the student where knowledge and skills gaps are specified, the degree of support the student is entitled to, and the terms and date(s) for examination(s).

Limitations on the number of occasions for placement

Interruption of placement or other clinical/practical activities due to gross unfitness/incompetence when applying skills is considered a missed occasion. Students who have failed three placements in the same course must discontinue their studies in the program in question. A student who has been failed three times on their placement will be offered counselling with student counsellor.
