

COURSE SYLLABUS

Research Methods 1 SusCom, 7.5 credits

Research Methods 1 SusCom, 7,5 högskolepoäng

Course Code: LRSS20	Education Cycle: Second-cycle level
Confirmed by: Director of Education Dec 10, 2019	Disciplinary domain: Social sciences
Revised by: Director of Education Apr 12, 2022	Subject group: MK1
Valid From: Spring 2023	Specialised in: A1F
Version: 3	Main field of study: Media and Communication Science

Intended Learning Outcomes (ILO)

On completion of the course, the student should be able to:

Knowledge and understanding

- explain the fundamental characteristics and use of specific qualitative and quantitative research methods in media and communication (1)
- explain the applicability of different methods for answering specific research problems (2)
- identify research problems within media and communication (3)

Skills and abilities

- formulate research questions that can be researched in an upcoming first year master's thesis (4)
- define appropriate research methods that can be applied in a coming thesis (5)
- write a research design for an upcoming first year master's thesis (6)

Judgement and approach

- critically reflect on the affordances of qualitative and quantitative research methods in media and communication (7)
- critically reflect on the relation between research problem, theory and methods in media and communication research (8)

Contents

- Research design and research process
- Quantitative and statistical research methods
- Qualitative research methods

Type of instruction

The teaching consists of lectures, seminars and exercises performed individually and in groups.

A learning management system is used.

Students who have been admitted to and registered for a course have the right to receive instruction/supervision for the duration of the time period specified for the particular course instance to which they were accepted. After that, the right to receive instruction/supervision expires.

The teaching is conducted in English.

Prerequisites

Second-cycle courses equivalent to 15 credits in Media and Communication Sciences, for example Sustainability and Communication, 15 credits, or Media in the Digital Age - Participation, Power and (In)Equality, 7.5 credits, and Transmedia Storytelling and Design, 7.5 credits.

Examination and grades

The course is graded A, B, C, D, E, FX or F.

The grades A, B, C, D and E are all passing grades. For courses with more than one element of examination, students are given a final grade based on an overall assessment of all the elements included in the course. The final grade of the course is issued only when all elements of examination have been passed.

The examination is based on the intended learning outcomes.

The course is examined through an individual written assignment (ILO 1, 2, 3, 4, 5, 6), a group presentation (ILO 1, 2) and a seminar (ILO 7, 8).

The examination must allow for students to be assessed on an individual basis. Further information concerning assessment of specific intended learning outcomes and grading criteria is provided at the beginning of the course.

To receive the final grade of this course, the student needs to pass all of the examinations. In order to achieve grade A in the course, the student should have an A in the individual written assignment.

Students are guaranteed a minimum of three attempts to pass an examination, including the regular attempt.

If a student has failed the same examination three times, the student can request that the next attempt be graded by a new examiner. The decision to accept or reject such a request is made by the associate dean of education. A student may not make a second attempt at any examination already passed in order to receive a higher grade.

In case a course is terminated or significantly altered, examination according to the earlier

syllabus shall be offered on at least two occasions in the course of one year after the termination/alteration.

Registration of examination:

Name of the Test	Value	Grading
Individual written assignment	4.5 credits	A/B/C/D/E/FX/F
Group presentation ¹	2 credits	U/G
Seminar ¹	1 credit	U/G

¹ The examination is graded Fail (U) or Pass (G).

Course evaluation

The instruction is followed up throughout the course. A course evaluation is conducted at the end of the course. A summary and comments are published in the learning management system. The evaluation constitutes a basis for future improvements to the course.
